Course Title: Study Project

Instructor-in-charge: R. Parameshwaran

1. Scope and Objective: The course is specially designed to provide an opportunity to the students for development of their academic skills and logical thinking through open ended study oriented activities. As a part of education, this project course follows a method of learning and therefore, the student's actual day-to-day task involvement would constitute the central thread of the learning process. The evaluation will recognize this aspect by demanding day-to-day involvement and punctuality of the student.

In a specialized course of this nature, the respective Instructor's assessment of the student vis-a-vis the objective of the project would be the central criteria for arriving at final grade.

- Continuous interaction with the Instructor.
