In addition to part I (General Handout for all courses appended to the time table) this portion gives further specific details regarding the courses.

Course No : **BITS F110**
Course Title : **ENGINEERING GRAPHICS**
Instructor-in-charge : **Dr. KURRA SURESH**
Team of Instructors : **Dr. Arshad Javed**

1. Course Description

Introduction to AutoCAD commands, simple drawings, orthographic projections, projections of points, lines, planes; auxiliary projections; projections and sections of solids; development of surfaces; isometric projections.

2. Scope and objective of the course:

Engineering Graphics is the primary medium for development and communicating design concepts. Through this course, the students are trained in Engineering Graphics concepts with the use of AutoCAD. The latest ISI code of practice is followed. Computerized drawing is an upcoming technology and provides accurate and easily modifiable graphics entities, easy data storage and retrieval facility and enhances creativity.
