SECOND SEMESTER 2021-2022

Course Handout Part II

Date: 15.01.2022

In addition to part-I (General Handout for all courses appended to the time table) this portion gives further specific details regarding the course.

Course No. : INSTR F343

Course Title : Industrial Instrumentation & Control

Instructor-in-charge: R. N. Ponnalagu Instructor: R. N. Ponnalagu

1. Scope and Objective of the course

This course offers study of various aspects of automatic control for industrial processes, including some recent developments in the field of process control.

2. **Course Description:**

Introduction to process control; Elements of process loop; Controller principle; Hydraulic, pneumatic, electronic controllers; Controller tuning; Final control elements; Control loop characteristics; Complex control systems; Intelligent controllers; Programmable logic controllers; Distributed control systems; Digital control principles;

3. **Text Book:**

Surekha Bhanot, *Process Control: Principles and Applications*, Oxford University press, Fourth Impression 2010

4. **Reference Book**:

R1 C.D. Johnson, *Process Control Instrumentation Technology*, Prentice Hall of India, New Delhi, 1993

R2 Liptak B.G., *Process Control: Instrument Engineer's handbook*, Butterworth Heinemann

R3 Krishan Kant, *Computer Based Industrial Control*, Prentice Hall of India, New Delhi, 1997

R4 Stephanopoulos George, *Chemical Process Control*, Prentice Hall of India R5 Ogata K., *Modern Control Engineering*, Pearson Education Asia

5. Course plan

| Lecture No. | Learning Objective | Topics to be covered | Chapter in the Text Book |
|----------------|-------------------------------|--------------------------|-----------------------------|
| 1,2 | To appreciate the needs, | Basic Control loop, | T-CH1 |
| | objectives of process control | variables, requirements, | R4(1.9) |

| | | nime parameters | |
|---------|--|--|---------------|
| | | aims, parameters, dynamics of the process | |
| 3 | To understand the dynamics of | Terms, concepts used in | T-CH2 |
| 3 | processes | process dynamics | 1-0112 |
| 4 | To understand/review the | Transfer functions, block | R5-CH4 |
| - | concepts of Transfer function | diagram and signal flow | 10-0114 |
| | concepts of Transfer function | representation | |
| 5 | To understand need and | Model of lumped and | T-CH2, R3 – |
| | concept of mathematical | distributed parameter | CH11, R5- |
| | modeling | systems | CH2,3&4 |
| | | | , |
| | | | |
| 6,7 | To understand steady state and | Transient and steady state | R5-CH5 |
| | transient analysis | analysis of first order, | |
| | | second order and higher | |
| | | order systems and | |
| | | numerical to highlight | |
| | | concepts | |
| 8 | To understand different | On-off, on-off with neutral | T-CH3, |
| | controller modes | zone | R4(9), R3 – |
| 0.10.11 | - 1 1.000 | | CH1 |
| 9,10,11 | To understand different | Proportional, Integral, | T-CH3, R4(9), |
| 10.10 | controller modes | derivative, PI, PD, PID | R3 – CH1 |
| 12,13 | To learn dynamic behavior of | Effect on dynamic | T-CH4, |
| | feedback-controlled systems | behavior of process with | R4(14) |
| | | different controller modes in closed loop with | |
| 14,15 | To learn about controller tuning | Ziegler, Cohen-Coon, | T-CH4, R4 |
| 14,15 | To feath about controller tuning | Integral performance | 1 0114, 114 |
| 16 | To learn about DDC loop | Sampling and | T-CH5 |
| | 10 10 11 11 10 10 10 10 10 10 10 10 10 1 | reconstruction, DDC | |
| | | structure, position & | |
| | | velocity algorithm | |
| 17 | To realize controller modes in | Controller modes in | T-CH6, R5 |
| | pneumatic controllers | Pneumatic controllers | (4.3) |
| 18 | To realize controller modes in | Controller modes in | T-CH6, R5 |
| | hydraulic controllers | Hydraulic controllers | (4.4) |
| 19 | To realize controller modes in | Controller modes in | T- CH7, |
| | electronic controllers | electronic controllers | R1(10.3) |
| 20,21 | To learn the evolution, | PLC vs relay Logic, PLC | T-CH13, |
| | hardware of Programmable | vs PCs, hardware | R3(5), R2 |
| 22.52 | Logic Controllers | components | T OTTAG |
| 22,23 | To learn ladder diagram | Ladder diagram, selection | T-CH13, |
| 24 | programming | of PLCs | R3(5), R2 |
| 24 | To learn application of AI | Role of AI | T-CH14, |
| 25.26 | techniques in process control | EC atom atoms D. 11. 0 | R3(13), R2 |
| 25,26 | To learn ES structure & | ES structure, Design & | T-CH15, |
| 27.20 | Application | Applications | R3(13) |
| 27,28 | To learn concept & applications | Fuzzy controllers | T-CH17, |
| | of FLC | | R3(13), R2 |

| 29 | To learn about different final control elements | Functions of control valves, Types of control valves, actuators | T-CH8, R3 – CH4 |
|-------|---|---|-----------------------|
| 30 | To understand P&I diagrams | Draw P&I diagrams | Т-СН9 |
| 31,32 | To understand complex control schemes | Cascade control, Ratio control, | T-CH10, R4(20, 21) |
| 33,34 | To understand complex control schemes | Feedforward, Adaptive control, Inferential, Model reference adaptive control, Self tuning regulator | T-CH10, R4 (21) |
| 35,36 | To understand complex control schemes | Override, Auctioneering, Split Range | T1-CH11, R4(22) |
| 37,38 | To understand interaction and decoupling of control loops | Design of cross controllers and selection of loops using RGA | T-CH12, R4(24) |
| 39,40 | To understand distributed digital control systems | History, functional requirements, system architecture, configuration | T-CH18, R3(6),R2 |

6. Evaluation Scheme

| Components | Duration | Weightage | Marks | Date & Time | Nature of |
|---------------|----------|---------------|-----------|--------------|-------------|
| Components | Durudon | Weightuge | IVICI ILS | Dute & Time | Component |
| Midsem | 90 | 30 % | 60 | 15/03 3.30pm | Open/Closed |
| | minutes | | | to5.00pm | Book* |
| Quizzes (3) | 20 | 15% | 30 | To be | Open/Closed |
| | minutes | | | announced | Book* |
| Term Paper / | _ | 15% | 30 | Take Home | Open Book |
| Assignments | | | | | |
| Comprehensive | 120 | 40 % (10 % | 80 | 18/05 AN | 10 % Open |
| _ | minutes | Open book | | | book and |
| | | and 30% | | | 30% |
| | | *Closed book) | | | *Closed |
| | | | | | book |
| Total | | 100% | 200 | | |

^{*} Indicates the evaluation component will be closed book for offline exams, and the evaluation component will be open book for online exams.

- 7. **Chamber Consultation Hour** : To be announced in the class.
- 8. **Course Notices:** Notices will be displayed in CMS.
- 9. **Make-up Examination**: Make-up will be given on *extremely genuine* grounds only for those receiving prior approval. No make up for quizzes
- 10. **Academic Honesty and Integrity Policy:** Academic honesty and integrity are to be maintained by all the students throughout the semester and no type of academic dishonesty is acceptable.
